# Car wash, oil change, and detailing services now available at the Indianapolis airport

INDIANAPOLIS—Passengers can now take advantage of routine vehicle services at Indianapolis International Airport when they travel.

The following services are offered by Express Valet, located on Level 3 of the airport’s parking garage:

- *Drive-through soft-brush car wash* \$ 9
- *Full-service drive-through car wash, including inside vacuum and windows* \$ 18
- *Interior detailing* \$ 67
- *Full-vehicle (interior and exterior) detailing* \$140
- *Oil change (standard vehicles)* \$ 32

“Our research shows that there is a desire by airport parkers to be able to have their vehicles cleaned and maintained while they travel, so we decided to add a new layer of customer service to our overall parking program,” explains John Clark, CEO. “Adding value-added services like these is a key component of our strategic plan.”

Car wash and detailing services are available for vehicles parked with Express Valet for 24 hours or more. Oil change services are available for cars, SUVs, and passenger trucks parked with Express Valet for 48 hours or more.

“Since Express Valet began offering the services yesterday, the response has been outstanding,” says Hal Darring, CEO of Indianapolis-based Global Parking Systems, Inc., which owns and operates the airport’s Express Valet operation. “We understand the time of our customers is valuable. By offering convenient, affordable services while they travel, they will have a more positive airport experience.”

For questions or to schedule services, contact Express Valet at 317.240.0380 or Global Parking Systems at 317.246.7275. Visit [www.indianapolisairport.com](http://www.indianapolisairport.com) for information about parking options at Indianapolis International Airport.
